

Keeping your children safe online - Information for Parents

This guidance is to support you to keep your children safe online. This is especially important for you in the current situation where children are accessing their learning online and using technology as a form of socialising and communication.

The most important thing you can do is talk to your children about what they do online and how they can stay safe.

You can also help to keep them safe online by having parental controls set up and monitoring what your children are accessing online.

Below are some links to useful resources to help you:

- To ensure that you have parental controls set up on the devices that your children are using,
 - Give you information and advice about the sites and apps that your children are accessing
 - To get help to report any concerns and remove any inappropriate content or material.

If you have any concerns or worries about anything in your child's online learning or any other sites/apps or inappropriate content, please report to distancelearningsupport@staplegrave.bwmat.org.

To support the children's learning, we may recommend Youtube clips. Please be aware that whilst the clips we choose will have been chosen carefully, we have no control over whether the link given is diverted to a different clip or that the accompanying links and adverts will be age appropriate. We advise that you view the video and links/adverts before sharing with your child.

Please contact the above email address if you have any questions or need any further advice.
